

PAD 6149 Syllabus — Fall 2026

PAD 6149 – Nonprofit Administration (Capstone)

University of Central Florida School of Public Administration

Professor: Dr. Seongho An	Semester: Fall 2026
Office: DPAC Suite 448D	Format: Online (W)
Phone: (407) 823-5832	Fax: (407) 823-5651
E-mail: seongho.an@ucf.edu	Zoom Office Hours: Tues and Thurs 12–3 pm https://ucf.zoom.us/j/2394433404

Course Text(s)

The following is the required text for the course:

- Hudson, Mike. 2005. *Managing at the leading edge: New challenges in managing nonprofit organizations*. San Francisco, CA: Jossey-Bass. (ISBN: 978-0-7879-7806-8)
- Worth, Michael J. 2019. *Nonprofit management: Principles and practice*. Thousand Oaks, CA: SAGE (ISBN: 9781506396866).
- Rowe, G., & Conway Dato-On., 2013. *Introduction to Non-Profit Management-Text and Cases*. Thousand Oaks, CA: SAGE. (ISBN: 9781412999236)

The following is the suggested text for the course:

- Gottlieb, Hildy. 2009. *The Pollyanna principles: Reinventing 'nonprofit organizations' to Create the Future of the World*. Tucson, AR: Renaissance Press. (ISBN: 0981892809)
- Wolf, Thomas. 2012. *Managing a nonprofit organization in the Twenty-First Century*. New York: Simon & Schuster. (ISBN: 9781451608465).

*To enhance your learning experience and provide affordable access to the right course material, this course is part of an inclusive access model called First Day™. You can easily access the required materials for this course at a discounted price, and benefit from single sign-on access with no codes required in UCF Webcourses.

UCF Student Accounts will bill you at the discounted price as a course charge for this course. It is recommended that you Opt-In as these materials are required to complete the course. You can choose to Opt-In on the first day of class, right within Canvas. Be sure to Opt-In before the Add/Drop deadline to have access to your course materials at the discounted price.

Attention: VA/VR/DBS and Dual Enrollment students, do NOT Opt-In. You will need to contact the bookstore for your course materials.

Course Description

This course is designed to be taken *Last semester in the Program*.

This course offers an overview of nonprofit management, focusing on the ethical and leadership responsibilities of those individuals responsible for administering a non-profit organization. Due to the capstone nature of this course, it is expected that students enrolled in this course are in their last semester of the Master of Nonprofit Management degree program.

Course Philosophy

This capstone is where you demonstrate that you can do the work of nonprofit management — and you choose **how** you prove it. Every student masters the same five NASPAA competencies, but you select one of two paths to demonstrate that mastery:

- **Option A — ePortfolio.** You assemble and reflect on the strongest evidence from across your MNM program, curating a professional ePortfolio that documents your mastery of each core competency. This path suits students who want to consolidate, reflect on, and present the body of work they have already produced as they enter the job market.
- **Option B — Build the Petco Love Lost Start-Up.** You spend the semester building a real start-up nonprofit — jointly created by **Halifax Humane Society** and **Petco Love** — whose single purpose is to operate the **Petco Love Lost** free, AI-powered lost-and-found-pet program well across Volusia County. You design its board, staffing plan, programs, budget, brand identity, financials, and advocacy strategy, adapting your prior MNM coursework into a living organizational blueprint and public website. The organization is fictional, but the partners, the problem, and the data are real — and after the semester, completed sites are shared with Halifax Humane Society and Petco Love and may inform how the program is actually operated. This path suits students who want to apply everything they have learned to a venture with a real client.

Both paths follow the **same weekly readings and lectures**, are graded against the **same standards**, and carry **identical point values**. One assignment — the **Leadership Case Study (30 pts)** — is required of everyone, regardless of path. Graded work begins in **Week 3** (Weeks 1–2 are for orientation, readings, and choosing your path), and both paths end with a **live website and a 5–8 minute video due December 3**. You choose your path before Week 3 and keep it for the semester. The best way to learn nonprofit management is to *do* it: whether you build the start-up or curate the evidence of work you have already done, you finish this course with a professional artifact you can show the sector.

This course also treats artificial intelligence as a core professional competency. Nonprofit leaders today use AI tools to write grants, communicate with donors, analyze program data, and develop strategy. Rather than prohibiting these tools, this course requires students to use them — and to reflect critically on what AI can and cannot do in the service of a mission-driven organization. Students on both paths will document their AI use throughout the semester, developing the kind of thoughtful, ethical AI fluency that the nonprofit sector increasingly demands.

Nonprofit Management Core Competencies

This course is designed to respond in part to the Global Standards in Public Affairs Education (NASPAA) common curriculum components:

- Budgeting and financial processes.
- Policy and program formulation, implementation, and evaluation.
- Decision-making and problem solving.
- Political and legal institutions and processes.
- Organization and management concepts and ethical behavior.

The required competencies taught so that students at the completion of their nonprofit management program of study will be able to demonstrate the:

1. *Ability to lead and manage in a dynamic, mission driven nonprofit sector;*
 2. *Ability to analyze, synthesize, think critically, solve problems and make decisions for the purpose of strengthening nonprofit organizations, the nonprofit sector, and society at large;*
 3. *Ability to communicate and interact productively with a diverse and changing workforce and citizenry;*
 4. *Ability to articulate and apply a public service perspective emphasizing the role of civil society in democratic governance; and*
 5. *Ability to articulate and apply the values of honesty, stewardship, service, civic engagement, and social justice while functioning in the nonprofit sector.*
-

Course Objectives

At the completion of this course students will be able to:

- Evaluate the role of the nonprofit sector in our society and economy,
- Identify trends, challenges, and opportunities in the nonprofit sector,
- Explore and discuss managerial tools, techniques, and strategies for effectively administering nonprofit agencies,
- Identify the moral and ethical responsibilities of nonprofit administration,

- Analyze the leadership literature and application to nonprofit administration,
 - Explore relationships among government, businesses, and nonprofit organizations,
 - Design capacity building and change management strategies for nonprofit organization
-

Course Requirements and Evaluation

Grading is **identical across both paths**: a common **Leadership Case Study (30 pts)** required of everyone, plus **50 pts** of weekly deliverables on your chosen path. Both paths total **80 points**, and each week's deliverable carries the same point value regardless of path — so the two paths are equivalent in workload and weight. **Graded work begins in Week 3**; Weeks 1–2 are for orientation, readings, and choosing your path. The weekly readings and lectures are shared; only the deliverable differs.

WK	MODULE TOPIC	OPTION A – EPORTFOLIO	OPTION B – PETCO LOVE LOST START-UP	PTS
1–2	Intro, the sector & choosing a path	<i>Orientation — no graded deliverable</i>	<i>Orientation — no graded deliverable</i>	—
3	Cross-sector collaboration	Build Your ePortfolio Site	Build Your Website	3
4	Boards & governance	C4: Governance & Ethics evidence + reflection	Board & Governance	6*
5	Human resources management	C3: HR evidence	HR & Volunteers	5
6	Marketing & images	C3: Communication evidence	Confirming Your Identity	2
7	Financial management	C3: Financial evidence + reflection	Financial Plan	2
8	Resources development	C2: Volunteer Management evidence	Fundraising Strategy	2
9	Strategic planning	C1: Strategic Planning & Leadership evidence	Strategic Plan	7
10	Managing performance	C2: Program Evaluation evidence + reflection	Program Evaluation	5
11	Sustainability & leadership	 Leadership Case Study (+ C1 reflection)	 Leadership Case Study	30
12	AI content & social media	AI Reflection + portfolio polish	AI Content & Social Media	4
13	Effectiveness & policy advocacy	C5: Policy Advocacy evidence + reflection	Policy Advocacy	5
14	Putting it together	Final ePortfolio & Presentation Video	Final Pitch Video	8/9*
Total (both paths)				80

 = **common requirement**, identical for both paths. * Week 4 is 7 pts on Option A and 6 pts on Option B; Week 14 is 8 pts on Option A and 9 pts on Option B. All other weeks are identical, and both paths total 80.

Choosing Your Path

You will declare your path (Option A or Option B) **before Week 3** on the “Choose Your Capstone Path” page in Webcourses. The choice is binding for the semester. If you are unsure, Option A is the natural fit if you have a strong body of completed MNM coursework you want to present professionally; Option B is the natural fit if you want the hands-on experience of assembling every piece of a real start-up (and want work you can point to in an interview — an organizational plan and pitch built from a real partnership case, seen by the partners themselves). Both satisfy every program competency and lead to the same degree outcome.

Final grades will be determined on the following scale:

RANGE		GRADE	GPA
100 – 93	=	A	4.0
92 – 90	=	A–	3.75
89 – 87	=	B+	3.25
86 – 83	=	B	3.0
82 – 80	=	B–	2.75
79 – 77	=	C+	2.25
76 – 73	=	C	2.0
72 – 70	=	C–	1.75
69 – 67	=	D+	1.25
66 – 63	=	D	1.0
62 – 60	=	D–	0.75
59 – 0	=	F	0.00

Financial Aid Attendance Requirement

All faculty members are required to document students’ academic activity at the beginning of each course. Completing your Financial Aid Attendance Assignment will meet this requirement and document that you began this course. Failure to complete this course requirement will cause a delay in the disbursement of your financial aid.

Assignment Descriptions

Detailed instructions, rubrics, and AI tool recommendations for each assignment are provided in the individual assignment pages on Webcourses. Below is a summary of how each path is structured and

how the assignments demonstrate the five NASPAA competencies. Both paths are graded against the same competency rubric and carry identical weekly point values.

Common Requirement: Leadership Case Study (30 pts) — required of everyone

Every student, regardless of path, completes the **Leadership Case Study** in Week 11. This is a **general case analysis**: you evaluate a realistic leadership situation a nonprofit manager faces, identify the underlying problems, and propose well-reasoned, evidence-based solutions grounded in the leadership and management literature. It is the **single largest assignment in the course** and the shared deliverable that anchors both paths to the program’s core competency in leadership and management (C1). At 30 of the 80 course points, it is worth over a third of the grade.

Option A — ePortfolio

The ePortfolio is a retrospective capstone: you curate and reflect on the strongest evidence of your mastery from across your MNM program. Each week you submit one piece — an item of evidence (a graded assignment from a prior PAD course, or a work/volunteer artifact) paired with a short reflection — and by Week 14 you assemble these into a single professional ePortfolio with a Welcome section, five competency sections, and a final presentation.

PHASE	WEEKS	WHAT YOU SUBMIT
Orientation	1–2	Readings, path selection, and a welcome statement + competency self-assessment (ungraded, folded into the Week 3 site build)
Site setup	3	Build your ePortfolio site
Competency evidence + reflections	4–13	One competency measurement (evidence + 2–3 page reflection) per week, on that week’s topic
Capstone	14	Final ePortfolio assembly + a 5–8 minute presentation video

Each competency section requires **two measurements of evidence** plus a **2–3 page reflection** connecting the evidence to the competency. The Welcome section also includes your resume documenting relevant nonprofit work or volunteer experience.

Option B — Build the Petco Love Lost Start-Up

This path designs and develops a real start-up nonprofit over the semester — jointly created by **Halifax Humane Society** and **Petco Love** to operate the **Petco Love Lost** free AI photo-matching program across Volusia County. Every assignment produces a document submitted to Webcourses and a corresponding page or update on the organization’s public website; each week you pull one

piece of your prior MNM coursework and adapt it to this real case, with each week's page walking you through the specific AI tools, prompts, and check-and-revise steps for that deliverable.

How Your Website Grows Each Week

WEEK	ASSIGNMENT	WEBSITE COMPONENT	ADAPTS
3	Build Your Website	Home + About Us + placeholder pages	—
4	Board & Governance	Leadership	PAD 6237
5	HR & Volunteers	Team + Get Involved	PAD 6417, PAD 5145
6	Confirming Your Identity	Identity / brand (applied across the site)	—
7	Financial Plan	Financials	PAD 6208
8	Fundraising Strategy	Donate	PAD 5146
9	Strategic Plan	Strategy	PAD 6335
10	Program Evaluation	Programs	PAD 6327
11	<i>(Leadership Case Study — common requirement)</i>	Our Approach	—
12	AI Content & Social Media	Social / content	—
13	Policy Advocacy	Advocacy	PAD 6142, PAD 5146
14	Final Pitch Video	5–8 min video on Home	—

By Week 14, Option B students have a fully functional website for the start-up — with governance documents, staffing plans, financial projections, program descriptions, evaluation frameworks, advocacy plans, and a pitch video — a complete organizational blueprint that demonstrates mastery across all five NASPAA competencies. Completed sites are shared with Halifax Humane Society and Petco Love after the term.

Assignment Format (Option B)

Starting in Week 4, every major assignment follows this pattern:

1. **Revisit prior MNM coursework** — pull up the relevant assignment from your earlier PAD courses
 2. **Upload to Google NotebookLM** — use AI to discuss and adapt your prior work for your new organization
 3. **Draft the document** — submit to Webcourses as Word (.docx)
 4. **Update your website** — add a public-facing summary page with a PDF download link
-

NASPAA Competency Mapping (both paths)

Both paths demonstrate the same five competencies; they differ only in *how*. Option A submits evidence from prior coursework plus a reflection; Option B builds a new artifact for the student’s own organization.

COMPETENCY	OPTION A – PRIOR-COURSEWORK EVIDENCE (+ REFLECTION)	OPTION B – NEWLY BUILT ARTIFACT
C1: Lead and manage in a dynamic, mission-driven nonprofit sector	PAD 6335 Strategic Plan; PAD 6149 Leadership Case Study	Strategic Plan (W9), Leadership Case Study (W11), Final Pitch Video (W14)
C2: Analyze, synthesize, think critically, solve problems, and make decisions	PAD 6327 Program Evaluation Plan; PAD 5145 Volunteer Case Study	Program Evaluation (W10)
C3: Communicate and interact productively with a diverse and changing workforce and citizenry	PAD 6417 HR Case Study; PAD 6208 Financial/Budget Analysis	HR & Volunteers (W5), Financial Plan (W7)
C4: Articulate and apply a public service perspective emphasizing the role of civil society	PAD 6237 Governance Case Study; PAD 5145 Volunteer Motivation Literature Review Paper	Board & Governance (W4)
C5: Participate in and contribute to the policy process	PAD 6142 Policy Advocacy Plan; PAD 5146 Policy Process Paper	Policy Advocacy (W13)

The Leadership Case Study (W11) is the common requirement and counts toward C1 for both paths.

Artificial Intelligence (AI) Tools Policy

The Professional Case for AI Fluency

Nonprofit managers are expected to use AI tools for grant writing, donor communications, program evaluation, strategic planning, and advocacy. This course treats AI fluency as a NASPAA-aligned competency: the ability to analyze, synthesize, and make decisions using current technology. AI tools are **required** in this course — not prohibited.

Rules of Ethical AI Use

- You must author, direct, critically evaluate, and take ownership of all AI-assisted work.
- Submitting raw AI output without your own analysis, judgment, and revision is academic dishonesty.
- AI-generated text that you adopt must be revised and integrated into your own voice.
- AI-generated images must be labeled as such when they could be mistaken for real photographs.

Free Tools Only

No paid subscriptions are required for this course. Each assignment page includes a “Useful AI & Online Tools This Week” table listing specific free tools recommended for that week’s deliverable. All tools used in this course have free tiers sufficient for the coursework.

Privacy Note

Do not enter real individuals’ personal data or donor information into AI tools. When practicing with HR or fundraising scenarios, use fictional names and data.

Class Policies

Participation Policy

In a 3-credit-hour graduate level course, a traditional rule of thumb is that a student will spend 3 hours in class each week, and 6 hours outside of class working on the course. This is equivalent to 9 hours for each online week. Some students will spend less, some more, but that is the average amount expected. If you feel that you are unable to commit this amount of time to this course due to other commitments, I suggest that you contact me to discuss your situation or that you consider dropping the course.

Missed or Late Work

In principle, late work is not accepted. All assignments must be turned in on or before the due date and time listed in the syllabus or Webcourses folder. They must be turned in via the stated format (i.e. online, in class, etc.). Emergencies do arise and can be discussed with the professor. Late work *may* be graded at the discretion of the professor based on available time and other constraints. Any work accepted late will receive a 10 percent deduction per day late (except University holidays).

Academic Honesty

Many incidents of plagiarism result from students’ lack of understanding about what constitutes plagiarism. However, you are expected to familiarize yourself with UCF’s policy on plagiarism. All work you submit must be your own scholarly and creative efforts. UCF’s Golden Rule defines plagiarism as follows: **“whereby another’s work is used or appropriated without any indication of the source, thereby attempting to convey the impression that such work is the student’s own.”** This includes not only not citing work, but **“building”** a paper using long quotations from other sources. Long quotations should be appropriately formatted using APA and clearly cited.

Students will be held to the terms of academic honesty as dictated by UCF. Plagiarism, copying, and all other types of cheating will not be tolerated. All abuses will be reported to the University. Students found guilty of academic dishonesty may receive an “F” in the course, be asked to leave the University, or suffer other consequences. Students should refer to the Golden Rule for further clarification of this

issue. Turnitin.com is an online system, which determines if work has been copied from another source. Turnitin is integrated to Webcourses at UCF.

Self-plagiarism also undermines the academic purpose of the exercise of working on course assignments. Each product in this class is to be an original work by you. You plagiarize yourself if you submit for university credit a piece of work that is the same or substantially similar to work for which you have already gained or intend to gain university credit, at this or any other university. To avoid self-plagiarism, you must have prior permission from the relevant instructor(s) and give full attribution to the source (i.e. yourself).

Any expression you use that is identical to one in the original source must be presented using "quotation marks," and the source should be clearly identified.

Accessibility Statement

The University of Central Florida is committed to providing reasonable accommodations for all persons with disabilities. This syllabus is available in alternate formats upon request. Students with disabilities who need accommodations in this course must contact the professor at the beginning of the semester to discuss needed accommodations. No accommodations will be provided until the student has met with the professor to request accommodations. Students who need accommodations must be registered with Student Accessibility Services, Ferrell Commons, 7F, Room 185, phone (407) 823-2371, TTY/TDD only phone (407) 823-2116, before requesting accommodations from the professor.

Writing/APA Style Assistance

Successful graduate-level work requires *reasonable proficiency in writing skills* (grammar, spelling, syntax, use of paragraphs and punctuation), as well as *proper documentation* of sources and citation of references (APA most recent edition). Poor writing and use of APA will result in a lower grade on assignment. There are many resources available for students on the UCF library's website at <https://guides.ucf.edu/apa>.

UCF Library

Students who are logged into Webcourses@UCF and click on a Library link will automatically have access to library resources. They will no longer need to login to online Library services if they are already logged into an online course. For students outside of online courses, they can now login to the Library using their PID and PID password instead of their library number. Distance students or branch campus students will no longer need to get a UCF ID card with a library number to access library resources from off campus.

Webcourses@UCF

Whether this course is online or face-to-face, some components of the course have been web enhanced using UCF's learning management system, Webcourses@UCF. If you are unfamiliar with

Webcourses at UCF, I strongly recommended that you review the Webcourses@UCF Student Tour online. Please let me know if you have any questions about using Webcourses@UCF.

E-mail and other communication

Please use Webcourses@UCF e-mail for course e-mails. This helps me to quickly identify student e-mails from my regular UCF e-mail, and respond to you faster. If you need to e-mail me and are not able to access Webcourses@UCF, then by all means use my UCF account: (Seongho.An@ucf.edu).

Here are a few other suggestions regarding email:

- Please Include "Subject" headings (e.g., Activity 1, quiz 2 grade).
- I check e-mail several times a day during the week, and you can usually expect a response within 24 hours.
- Remember that e-mail communication does not have the face-to-face communication benefits of voice inflection, body language, etc. As a result, it is very easy for misunderstandings to occur with email. If you have any questions about any e-mail I send, you should talk to me before or after class or schedule an appointment to meet with me.

Classroom Decorum and Respect

Learning and the exchange of ideas are an integral part of our classes. My expectation is that everyone will be treated with mutual respect and civility, thereby creating an optimum learning environment. Every student is to be respected, regardless of their culture, values, or beliefs. While interacting with your classmates, differences of opinion are welcome if presented in a mutually respectful manner. Students should feel free to express their opinions and to refer to relevant personal situations without fear of disapproval or disrespect; however, the classroom is not the place where students should indulge in personal venting or support seeking.

Religious Observances or Military-Related Responsibilities

If you experience a scheduling conflict or need accommodation for religious observance or military-related responsibilities, please speak with the instructor.

Notice of Copyright

This course may contain copyright protected materials such as audio or video clips, images, text materials, etc. These items are being used with regard to the Fair Use doctrine in order to enhance the learning environment. Please do not copy, duplicate, download or distribute these items. The use of these materials is strictly reserved for this classroom environment and your use only. All copyright materials are credited to the copyright holder.

UCF Creed

Integrity, scholarship, community, creativity, and excellence are the core values that guide our conduct, performance, and decisions.

Integrity	I will practice and defend academic and personal honesty.
Scholarship	I will cherish and honor learning as a fundamental purpose of my membership in the UCF community.
Community	I will promote an open and supportive campus environment by respecting the rights and contributions of every individual.
Creativity	I will use my talents to enrich the human experience.
Excellence	I will strive toward the highest standards of performance in any endeavor I undertake.

Course Schedule

WEEK	DATES	COURSE TOPIC	REQUIRED READING	ASSIGNMENTS DUE
1	Aug 24	Introduction to the course and syllabus	Fletcher (2005) <i>NVSQ</i> 34(4): 433–447; Mirabella (2007) <i>NVSQ</i> 36(4): 11S–27S	Financial Aid Attendance (DUE 5:00pm Aug 24th) + choose your capstone path — orientation only, no graded deliverable
